“ *My loving mommy im so glad i was able to take care of you til the end you are at peace with daddy and all of our other loved ones. Me mikey and ben were so blessed to be apart of the last bit of your life. Ive taken care of you for so long I feel lost without you. Im sorry that none of the rest of your blood family cared enough to be apart of yours and daddys lives the past few years but I would do it all over again because I love you both so much. You and daddy were the best parents and grandparents to me and mikey mommoms baby boy. Love you cant wait until I see you again.*
