“ To my big sister Donna thank you for being a sister to talk to , to get advice from, teaching me about life. I remember when I was about 6 year a old you sat me on the steps and taught me how to tie my shoes. One of many memories that I'll never forget. I'm going to miss you but I'll see you again, I love you to life!

“ A Big Sister that paved a highway for those whom had a desire to make the world a better place to live through the world of science, a path large enough and wide enough that was easy to follow. I thank God for her and the ground breaking service in her field, great foot steps to follow. God bless and keep the family in prayer, weeping may endure for a night but joy will come in the morning and God will allow the Son to shine on us. Amen
