“ JJ,  
you're missed so much, we met you three years ago and you became a very important part of our family, You were my riding partner, I'm a shop-aholic and turned you into one...  
My granddaughter your buddy Ms Jah'Lia is still trying to go see "Shay-Shay, she genuinely loves you.. How do you explain to a 4 year old that her Buddy isn't coming back? We will keep your .Memory alive so that she will never forget you... I still cry,cuss and fuss they should've never let you Leave that hospital, man how we miss you, I get in my car and tell myself lemme see if JJ wanna ride reality hits and the tears start to flow, my friend\riding partner is gone...I look over at your apartment and SMH wanting to ask God why? Knowing you don't question Gods work, so I tell myself that God saw that you were tired, he knows you better than anyone, you're our guardian angel now, i know that through Gods eyes you will watch over us..Your real sidekick Toya is crushed, she hasn't really been herself since you left us, Christopher constantly talks about you, he was so hurt.. I'm glad he got a chance to see and talk to you before God called you home... We love you JJ and we promise to keep your memory alive.... WE LOVE AND MISS YOU  
Your extended family  
Charlene, Toya,Chris and your favorite MS Jah'Lia
