“*Joann, you will be sorely missed. Ovarian cancer is so insidious and you fought the long, hard battle. You are at rest and peace now with your mom and dad. God keep you safe in his arms until we are all together again in his kingdom.*”

“*Joann u were a beautiful determined young woman. I will surely miss all the good times we had growing up. U fought a good fight with that cancer but ur body got tired and God called u home. Save us a place in heaven and fly high lil cousin. U r gone but will never be forgotten. See u when we get there.*”
