“ *John*
I was heartbroken when I found out you had passed. We had just reconnected after so many years. I remember playing at the playground at Letterkenny and playing red Rover and so many other good times when we were kids. I will miss my freind but we will see each other again on each day. RIP and love from you your freind

“ *My Dearest John, My heart is broken that you are gone - we had so many plans - I was so blessed to have you in my life, I will carry the memories that we shared over the years close to my heart. You were a loving person who cared who his true friends were, you were such a sweet soul, you were called home because your job here was done. I now know who my Guardian Angel is, its you.*
Til we meet again in God's Kingdom....
I miss you.....I love you.....
