“ You're missed, Sierra. My deepest and heartfelt condolences to your family. I'm sad you didn't get to see 25. We may not have worked out as a couple but you were far from the worst experience as a relationship ever. I'm holding the Good Times we shared as outweighing all of the negative. Damaged people who loved each other as best we could, all things considered. and I hope I you know when I said I forgave you, I said it once and meant that. See you next time around, Ms. Fowler. I hope you found the peace in death that you couldn't achieve in life.
