“ *Most people that know my brother Bill today know the brother I know. My Brother and I grew up in the post war era and knew little hardships our parents gave before and during the war. We both were loved and cared for by our parents and family. My brother was able to become a chef and teacher but he was more he was a caring person who found and gave love to all. We both as adults were independent as our parents raised us. Bill went on and settled in Maryland and I eventually in Hawaii. My brother was and is a good person that I know my parents were and are proud of (they did well). Rest In Peace , you are my brother in the past, today and forever. Your Brother Howard*
